

Mohamed Fawzzi

Front End Developer

Egypt, Mansoura | mohamedfawzzimohamed@gmail.com | +201094355330

[Portfolio](#) | [LinkedIn](#) | [Github](#)

Summary

Front-End Developer with hands-on experience building responsive, high-performance web applications using **React.js** and **Next.js**. Proficient in integrating **RESTful APIs** and managing state with **Context API** and **React Query**, with practical knowledge of **Redux Toolkit**. Skilled in writing clean, accessible, and maintainable code, while focusing on **performance**, **SEO**, and modern UI/UX best practices.

Work Experience

Freelance React.js Developer

Mar 2024 – Present

- Developed responsive, multilingual, and SEO-friendly web applications for clients in diverse sectors including education, e-commerce, trading, Marketing, restaurants, and others.
- Participated in end-to-end development lifecycle, ensuring performance, accessibility, SEO, and adherence to modern UI/UX practices.

Recent Work :

[dababat.com](#) – Motorcycle Marketplace platform

- Developed a motorcycle marketplace platform similar to dababat.com, supporting user authentication, ad and service management, and real-time chat between users.
- Implemented Google login, role-based access control, and secure user management.
- Built an Admin Dashboard for managing users, ads, and analytics using Chart.js.
- **Technologies:** React.js, Tailwind CSS, Axios, React Router DOM, Formik, Yup, Socket.io, Chart.js

[clickatads.com](#) – Marketing & Advertising Platform

- Developed a multi-language marketing platform with dark and light modes.
- Integrated PayPal and direct link payment methods for advertising campaign requests.
- Built service modules for website creation requests and social media account management.
- **Technologies:** React.js, Tailwind CSS, Axios, React Router DOM, React Query, i18next, Chart.js.

[waqtalsayana.com](#) – Car Maintenance Platform

- Developed a car maintenance reminder platform tracking upcoming service needs (oil changes, filters, battery, tires) and supporting payments via Moyasar.
- Implemented user profiles, service history tracking, and automated scheduling of reminders.
- Integrated a chatbot for user support, a dark/light mode toggle, and a secure Admin Dashboard.
- **Technologies:** React.js, Tailwind CSS, Axios, React Router DOM, Formik, Yup, Fuse.js

Personal Projects

ShopiQ – E-commerce Platform

Live: [Demo](#) | [Code](#)

- Developed a full-featured e-commerce platform powered by a real API.
- Implemented user authentication including login, registration, and password recovery via email.
- Built essential features: product browsing, wishlist, shopping cart, and secure Stripe payments.
- **Technologies:** React.js, Bootstrap, React Router DOM, Axios, Context API, React Query

Fast Food TNC – Meal Discovery App

Live: [Demo](#) | [Code](#)

- Developed a responsive food app to explore meals, area, and category with rating insights.
- Users can view full recipes with ingredients, preparation steps, and cooking instructions.
- Each meal includes a video guide for easy and engaging cooking.
- **Technologies:** Next.js, Tailwind CSS, Lucide-react
