Summary

Front-End Developer with hands-on experience building responsive and dynamic web applications using React and Next.js. Skilled in API integration, state management (Context API, Redux Toolkit, React Query), and creating optimized, reusable UI components. Passionate about writing clean code, enhancing performance, and delivering seamless user experiences.

Projects

Shopiq (E-commerce Platform)   **Live Demo | Source Code**

Developed a full-featured e-commerce platform powered by a real API, allowing users to browse products, create accounts, and manage their shopping experience with ease.
Implemented core functionalities such as user authentication (login, registration), password recovery via email, wishlist management, and shopping cart operations.

Technologies Used: React.js, Bootstrap, Context API, React Router DOM, Axios, React Query, Slick Slider.

Streamo (Movie Discovery App)   **Live Demo | Source Code**

Developed a movie discovery platform using the TMDB API, allowing users to browse, search, and watch the latest movies and TV shows with an intuitive and responsive interface.

Technologies Used: React.js, Bootstrap, Context API, React Router DOM, Axios, React Query, Swiper.

Fast Food TNC (Restaurant Site)   **Live Demo | Source Code**

Developed a fast food discovery website using TheMealDB API, enabling users to explore a wide variety of meals, search for dishes, and view detailed recipes and ingredients.

Technologies Used: Next.js, Tailwind CSS, Lucide-react.

Bookify (Book Discovery App)   **Live Demo | Source Code**

Developed a book discovery platform using The New York Times API, enabling users to browse a wide selection of books, view detailed information, and find purchase options from retailers like Amazon and Apple Books.

Technologies Used: Next.js, Tailwind CSS, Lucide-react.

Game Review (Free-to-Play Games Discovery)   **Live Demo | Source Code**

Developed a web application that enables users to discover and explore a wide range of free-to-play games, providing detailed information such as descriptions, ratings, and direct links to play the games.
Technologies Used: HTML, CSS, Bootstrap, Font Awesome, JavaScript, REST API.

Skills

- **HTML | HTML5**
- **CSS | CSS3**
- **JavaScript (ES6)**
- **React JS**
- **Next JS**
- **TypeScript**
- **Tailwind CSS**
- **Bootstrap**
- **REST API**
- **Redux | Redux Toolkit**
- **React Query**
- **Framer Motion**

Education

Bachelor's Degree in Computer Science, High Institutes at 6 October.   **Graduated: August 2023**

Diploma in Front-End Web Development, Route Academy.   **Duration: 5 Months**

Languages

Arabic: Native   **English:** Professional working proficiency
