Summary

Front-End Developer with **2+** years of hands-on experience building responsive **web** and **mobile** applications using **React.js**, **Next.js**, and **React Native**. Experienced in integrating RESTful APIs, managing state with React Query, Context API, and Redux Toolkit. Focused on writing clean, maintainable code with a strong focus on performance, SEO, and user experience.

Professional Experience

Frontend Developer

Jan 2025 – Jan 2026

Petra Project Management | Remote

- Developed and maintained production-ready front-end applications used across internal company projects
- Delivered scalable and maintainable user interfaces using React, with exposure to Next.js.
- Collaborated with project managers and stakeholders throughout the development process

Frontend Developer

Jun 2024 – Jan 2025

Freelance

- Worked on projects across multiple domains, including education, e-commerce, and trading platforms.
- Built responsive and SEO-friendly web applications for different clients
- Collaborated directly with clients to gather requirements and deliver solutions
- Focused on performance, accessibility, and modern UI/UX practices

Frontend Developer

Mar 2024 – Jun 2024

Dr Code | Internship

- Worked on building responsive web interfaces using HTML, CSS, JavaScript, and React
- Collaborated with UI/UX designers to implement responsive and user-friendly interfaces
- Practiced integrating RESTful APIs and handling asynchronous data using modern JavaScript patterns

Personal Projects

Ma3aak - Teacher marketing platform

[Live](#)

- Built and maintained the frontend application for a multi-service teacher marketplace using Next.js
- Integrated frontend flows for PayPal & HyperPay payments, handling checkout and transaction status
- Implemented search, filtering, and pagination for services, with dynamic currency display based on the user's country.
- Developed an in-platform communication system enabling students and tutors to coordinate session details and schedules directly, along with seamless online session handling.
- **Technologies:** Next.js, React, React Query, Zustand, Axios, React Hook Form, Yup, Socket.io

Dababat - Motorcycle marketplace platform

[Live](#)

- Built and maintained a frontend marketplace platform supporting user authentication, ad management, service listings, and real-time chat between users
- Developed a secure Admin Dashboard for managing users, advertisements, and platform operations
- Implemented Google authentication, role-based access control, and secure user management
- Integrated real-time communication features using WebSockets
- **Technologies:** React.js, Tailwind CSS, Axios, React Router DOM, Formik, Yup, Socket.io, Chart.js

Clickat - Marketing & Advertising platform

[Live](#)

- A regional digital advertising platform where users submit detailed campaign requests, pay through PayPal and direct links.
- Offers a two-language interface (Arabic and English) to serve a wider market base.
- Includes an admin dashboard for managing campaign requests, tracking progress, and handling platform operations.
- **Technologies:** React.js, Tailwind CSS, Axios, React Router DOM, React Query, i18next, Chart.js

Technical skills
